EDUCATION

Cavite State University
Bachelor of Science in Computer Science

Silang, Cavite
Graduation, September 2025

PROFESSIONAL SUMMARY

Experienced software developer with a proven track record in coding, debugging, and software design. Collaborative team player dedicated to delivering high-quality software solutions that align with project requirements. Proficient in multiple programming languages and frameworks, prioritizing impactful outcomes and cultivating a dependable, flexible work atmosphere. Recognized for problem-solving skills, clear communication, and a results-oriented mindset in software development endeavors.

TECHNICAL SKILLS

Technical Skills: JavaScript, TypeScript, C#, Java, HTML5, CSS3, SQL, .NET Core, NodeJS, ExpressJS, ReactJS, NextJS, AngularJS, ElectronJS, TailwindCSS, Material UI, Chakra UI, Shaden UI, MongoDB, Mongoose, JWT, OAuth 2.0, RestAPI, RESTful API Design, Object-Oriented Programming, SOLID Principles, Clean Architecture, Agile

Developer Tools: Git, GitHub, Github Actions, Postman, Visual Studio, Visual Studio Code, IntelliJ, NetBeans, Figma, Eraser.io, Vercel, MySQL Server, MySQL Workbench, MS SQL Server, SQL Server Management Studio (SSMS), Stripe API, Mapbox API, Remix, GitHub Copilot, Claude AI

WORK EXPERIENCE

Network Intern - Sun Life Financial Asia Services Limited
Taguig, Bonifacio Global City **July - September 2024**

- Provided network support and performed troubleshooting to resolve various WAN/LAN connectivity issues.
- Stayed abreast of industry advancements through continuous learning opportunities, applying newfound knowledge to improve current practices when applicable.
- Supported network engineers in their daily tasks, reducing workload burden and allowing for increased focus on higher-priority assignments.
- Gained valuable experience working within a specific industry, applying learned concepts directly into relevant work situations.
- Developed organizational skills through managing multiple tasks simultaneously while adhering to strict deadlines.
- Gained hands-on experience in various software programs, increasing proficiency and expanding technical skill set.
- Utilized strong communication abilities during presentations which led to increased understanding among colleagues regarding project goals and objectives.

Software Developer - Freelancer
Self-Employed **October 2023 - May 2024**

- Designed software architecture and developed web applications for clients, including e-commerce platforms, management systems websites and desktop applications.
- Provide different problem support services by supporting and solving clients in implementing different kinds of development issues and features.
- Implemented front-end and back-end solutions using my technical skills to build scalable and high-performance applications.
- Integrated third-party services such as Stripe, OAuth 2.0, JWT Token Authentication and Mapbox API to enhance functionality and user experience.
- Gained hands-on experience with development tools and software tools for testing and etc.
- Collaborated with clients to gather requirements, refine project goals, and deliver high-quality solutions on time.
- Contributed to a positive team environment through effective communication, problem-solving, and collaboration skills.
- Improved software efficiency by troubleshooting and resolving coding issues.

PROJECTS

Blockchain Based IDS for IoT Networks
ML | Solidity | Python | NextJS | NodeJS

Engineered a security system that utilizes blockchain technology and machine learning to detect and prevent cyber threats in IoT networks. Designed to ensure data integrity, decentralized threat logging, and enhanced network security.

Reward Crowdfunding Website
Stripe | NextJS | NodeJS | Tailwind | OAuth 2.0

Developed a web platform that allows users to raise funds for projects or causes by offering rewards in exchange for contributions. Integrated secure payment processing via Stripe and user authentication using OAuth 2.0.

Water Refilling Management System
NextJS | OAuth 2.0 | NodeJS | MongoDB

Built a digital platform for water refilling businesses to manage orders, track customer transactions, handle delivery operations, and generate data analytics for business insights.

Computer Shop Ordering App
ElectronJS | NodeJS | HTML5 | CSS3 | MongoDB

Developed a desktop application for computer shop cafes to manage customer orders and track inventory. Enabled customers to place food and snack orders directly from their workstations, streamlining in-shop service operations.

Bakery & Pastries Website
AngularJS | JWT | ASP.NET Core | MSSQL

Developed an online platform that enables bakery and pastry businesses to launch an ordering website. The system allows users to manage customer payments efficiently, track orders, and maintain organized scheduling through a secure, authenticated environment.
